

INTEREST GROUP SURVEY

Name: _____ Date _____ Time: _____

Current resource and recreation issues:

1. What is your user group's general perspective of the existing situation along Sacramento River between Red Bluff and Colusa?
2. How would you describe the current recreation opportunities that exist in the stretch (100-mile) of the River?
3. What does your group see as the major problems along the river (i.e., habitat, erosion, transportation, law enforcement, recreation conflicts, others)?
4. Are there concerns/issues about current recreation use on private lands?

Future resource and recreation issues:

1. What are your group's concerns about future use of the river?
2. What does your group feel is the best/healthiest future for the river corridor and it's communities in terms of the recreation access that should be provided?
3. What does your group feel is the appropriate amount of access? In other words, what should the future look like for public access?
4. What would your group's concerns be with increased use of the river corridor for recreation?
