

Table 6-8. Crop Types, Acreages, and Values Displaced in Tehama County

Crop Type	Crop	Acres	Value (\$)	County Crop Value (\$)	Percent of Countywide Crop Value
Citrus and subtropical	Kiwis <i>(notes a and b)</i>	0.1	102	3,692,750	0.0%
Deciduous fruits and nuts	Prunes	618	1,162,196	18,620,546	6.2%
	Almonds	106	191,718	11,907,212	1.6%
	Walnuts	1,357	1,864,047	16,461,292	11.3%
Field	Safflower	55	14,642	66,760	21.9%
	Corn (field/sweet)	52	23,803	598,998	4.0%
	Beans (dry)	161	93,804	698,121	13.4%
	Sunflower <i>(note f)</i>	132	91,383	219,751	41.6%
Grain and hay	Unspecified <i>(note c)</i>	5	936	181,308	0.5%
Pasture	Alfalfa and alfalfa mixtures	433	37,075	1,928,925	1.9%
	Mixed pasture	50	4,316	1,928,925	0.2%

Table 6-8. Continued

Crop Type	Crop	Acres	Value (\$)	County Crop Value (\$)	Percent of Countywide Crop Value
Truck, nursery, and berry	Melons, squash, and cucumbers (notes d and e)	184	532,914	150,296	100.0%
Total		3,153	4,016,936		

Notes

- a Kiwi production value not reported by Tehama County. Per acre production value reported by Butte County was used in the absence of Tehama County data.
- b Tehama County did not report a separate value for Kiwis in 2000. Values for miscellaneous fruits and nuts were used as county totals.
- c Acreage and production values reported by the Tehama County Agricultural Commissioner's Office for "wheat" was used to estimate the production value of land classified by DWR as unspecified grain ("G").
- d Values for "vegetable crops" reported by Tehama County was used for melons, squash, and cucumbers.
- e DWR land use mapping indicated approximately 352 acres within the study area are planted to truck crops (melons, squash, and cucumbers). The Tehama County 2000 crop report indicates 52 acres of vegetable crops were planted in the entire county. To account for the loss in production from the 184.38 acres that would be removed from production, the per acre production value of \$3,081.72 based on the 52 acres reported in the Tehama County crop report was used.
- f Sunflower production was not reported separately by Tehama County between 1991 and 1998. Averages are based on 1999 and 2000 data.
